

Dear Partner

Because of the Covid-19 situation we have unfortunately come to the conclusion that our staff week in the spring 2021 will be online this year (13-14. April 2021).

Due to the fact that almost everything is closed down in Denmark, as well as the borders are not open unless you have a legitimate purpose of entering Denmark, which a staff week is not – we feel that it will be most fair to draw this decision now, as we don't know if the lock down will be prolonged.

We hope that you would like to join our online staff days where we will focus on:

- Social Education in Denmark
- The Danish welfare model seen in relation to education
- Day care pedagogy in a Danish context
- Social Special pedagogy in a Danish context
- Semester programs available at the Social education for International students

Hopefully in 2022 things will be different, and we will be able to meet face to face in Viborg.

Please be aware that only participants working within the field of social education, teacher education and social work will be accepted.

Attached please find program and application form for our online staff days.

Kind regards
