

Dear Colleagues

European University Viadrina is pleased to announce its 3rd Staff Training Week to which we invite colleagues from all our partner universities.

Date

April 16th – 20th, 2018

Topic

“Mass or Class – Limits of Mobility”

We would like to take a closer look at the two seemingly contrary principles of quality and quantity of mobility as well as its limits within three areas:

- 1) Mobility
 - How do we define and measure quality of partnerships?
 - The student factor – making study abroad appealing for incoming and outgoing mobility
 - Incentives to get academic and administrative staff abroad.
- 2) Recruitment
 - Do Higher Education Institutions need student recruitment?
 - Where does student recruitment start and end?
 - What are the challenges and chances of regionally focused strategic student recruitment?
- 3) Refugees
 - How does the influx of refugees shape Higher Education?
 - What are the assets and limits of refugee Higher Education programs?
 - How can we successfully integrate refugees in university life and existing mobility programs?

All colleagues from partner universities interested in these topics are invited to join us!

Program

Have a look in our [preliminary program 2018](#).
