

Dear Partners,

The COVID-19 crisis has accelerated huge changes in higher education and introduced new forms of cooperation. With more or less active student mobility, staff visits had been put on hold for some time. But they have gained momentum and will hopefully continue despite some uncertainty.

Therefore, **Kaunas University of Technology** kindly invites colleagues from partner universities worldwide to its “**Global Faculty Week 2022**” to be held on **25-29 April 2022**. The purpose of the event is to integrate international and intercultural dimensions into the curriculum, strengthen the idea of internationalization at home, maintain and develop international cooperation. The event is open for **academic staff** working in the fields of engineering, technological, physical, social sciences and humanities.

The event will be held in a **hybrid format**. Colleagues, who are still hesitant about travelling or otherwise have no possibility to come to Kaunas for a physical visit, are very welcome to choose the possibility of virtual teaching.

In addition, we will prepare a week-long social programme with cultural presentations, networking events and workshops that will give the opportunity to gain new knowledge, start discussions and networking as well as help strengthen the existing and create new partnerships with colleagues from all over the world.

**The application deadline** is 25 March 2022. But we strongly encourage you to apply much in advance so that we have enough time to contact the faculties and find you a hosting programme.

Please do not hesitate to contact us at [erasmus@ktu.lt](mailto:erasmus@ktu.lt) or visit our [website](#) for more information about the event and registration.

---

We would be grateful if you could share this information with your colleagues at academic departments.
