Dear Colleagues,

If You wish to spend a week in a vivid international milieu, with the opportunity to both hold lectures and start new collaborations, as well as to enjoy a selection of relaxing and fascinating social programmes, join our **14th International Week** at the Faculty of Economics and Business Administration, University of Szeged, **4–8 April, 2022.**

The particular aim of the programme is to provide our students – both international and Hungarian – with the opportunity to listen to courses delivered by visiting lecturers from our partner institutions, at the same time strengthening already existing, as well as preparing and designing new collaborations in teaching, research and project activities between our institutions.

We invite Your students as well to join and register for mini-courses and social events in the **International Week.**

The Organizers

## Our guests are invited to participate in the following programmes:

-  **Mini courses** held in the training programmes of the Faculty of Economics and Business Administration (5-7 April, 2022). The basic aim of the programme is to convey academic experience for Hungarian and international students. Each mini course includes 6 teaching hours.
-  **Workshop I: Engaging Students in University Classes: flipped classroom (5 April, 2022)** In university classes, we often meet the challenges of engaging students and providing them practical knowledge. It is difficult to find the balance between practice and theory. In this workshop, we introduce a method, namely flipped classroom as an example, with the help of which the interactivity in classroom can be enhanced. Flipped classroom enables that a lecturer appears as a facilitator in the classroom. In the workshop, we discuss its advantages and shortages in an interactive form.
-  **Workshop II: Organizational Change towards Responsibility and Equity (6 April, 2022)** Ethics, responsibility, sustainability and community engagement are of high importance for 21st century universities. However, improving in these fields and integrating them into the everyday operation are still vastly challenging. The present workshop aims to share good practices (regarding both teaching and research) in this field and discuss challenges of organizational transformation. It focuses on two main issues: (1) equality and diversity and (2) university community engagement; but the workshop is open for discussing further related topics.
-  **Social activities** of various kinds

### Participation in the programme is free of charge.

Visitors living with disabilities find detailed information on accessibility features of our building at <https://access4you.io/places/1331437/details>.

**Please, send Your application via [<<THIS LINK>>](#) by 15 February 2022.**

Confirmation will be sent to Your personal email.

For further information, please, contact Dr. Ildikó Pusztai-Varga:
