

# International Days on Intercultural Awareness

2-5 May 2017, Eszterházy Károly University, Hungary

**Join us on a four day long experience for teaching and administrative staff: presentations, workshops, teaching and job shadowing opportunities, exciting social events**

Universities welcome staff and students from abroad and send their staff and students to partner universities. How can we deal with cultural differences at the university? How can we bridge the gap between cultures? How can we prepare our students when they plan a study abroad semester?

**Eszterházy Károly University serves its students with a wide variety of educational programmes in arts, sciences, humanities, pedagogy, at four campuses located in four cities of the region, Eger, Sárospatak, Gyöngyös and Jászberény. With years of experience in handling multicultural challenges, we invite our partners to exchange ideas and share good practices.**

**We encourage all our invited partners to bring their own ideas and presentations. When registering for the event, please submit the abstract of your selected topic – all presentations are to be published in the proceedings of the event.**

**We kindly ask you to forward this invitation to all your colleagues who might be interested.**

**Draft Programme:**
