

Dear colleagues,

Hello and greetings from sunny Vilnius! I hope you are having a great summer so far. Hopefully it already combined or will soon combine both lovely holidays and additional opportunities to discover new things and experiences. Speaking of those, I'm happy to share with you that Vilnius Business College and their close friends at 'Training trends' have a couple of Erasmus staff training courses during late August and mid-September that already received great feedback among participants in early July. Now maybe you'd be interested in joining them as well! It's a great opportunity to experience a 5 day course on-site in the lovely capital of Lithuania - Vilnius!

You probably heard this before, but I'd like to confirm once again - it's cheap to come, cheap to stay and definitely worth the visit! :) Especially when the courses themselves have cultural and explorational activities involved too!

Currently there still are vacancies remaining for the following Erasmus staff training course topics in late August, taking place on the same week:

1) Productivity management for education staff, August 26th-30th, course short introduction and registration information - <http://staffmobility.eu/staffweek/productivity-management-education-0>

2) Public Speech - Make Your Art, August 26th-30th, short brief and registration information - <http://staffmobility.eu/staffweek/public-speech-make-your-art-1>

Both of these staff courses are on offer during **September 16th - 20th as well**, so if you'd like to participate, but can't come in August, write to me and I can register you for the September's group.

I'd kindly like to ask you to share this invitation among your academic community as well, since the ending summer period just before the new academic year is a perfect chance to participate in staff training activities :)

Have a great Wednesday, enjoy the final day of July and hopefully see you here in Vilnius at the end of August :)

--

Pagarbiai / Best regards
