

Dear Partners, Colleagues and Friends,

Greetings from Portugal!

UNIVERSIDADE EUROPEIA, IPAM LISBOA AND IPAM PORTO have the great pleasure to announce the 19th INTERNATIONAL WEEK that will take place **from February 24th to 28th, 2025**. As usual the event will combine an International Staff Program and an International Lecture Program.

Each participant can choose which program to participate in or even choose both. Please note: Participation in the International Staff Program is exclusive to university partners members.

❖ **Theme Suggestion for the Lecture Program: *Education with impact: How to re-invent learning to prepare students for an ever-changing future?***

Universities face an evolving set of changes in societies and new needs and expectations from students. In this International Week we intend to stimulate debate on how to reinvent learning in order to equip students with the skills and knowledge essential to thrive in a constantly evolving world. Teachers must adapt and reinvent their teaching methods to ensure that students are prepared for this new landscape. This means adopting new technologies to create more engaging and personalized learning experiences, as well as nurturing students' skills such as critical thinking, problem-solving, and effective collaboration. By embracing new approaches and focusing on the evolving needs of students, higher education schools can surely continue to play a crucial role in contemporary societies. The big question, however, remains: how to do it? Note: Other proposals will be accepted as long as they fit within the programs offered in our institutions. Please consult the list of programs in attachment.
