

Hi all,

Great meeting you all for our very successful TPM meeting in Rotterdam. Sincere thanks to all of the ELM team for their wonderful hosting.

I just want to draw your attention to an event that we are hosting in April 2025. This Erasmus+ Staff Week has a very specific emphasis on employability/work placement. The week has been designed to be highly interactive with a very practical focus to support you in positioning employability strategically within your institution. It will also help you to explore your personality type in the workplace through personality typology and emotional intelligence workshops. The deadline for applications is the 28th of February, and the selection process will be completed by 5th of March.

For further information, see [Enhancing Student Employability for a Rapidly Changing World - Opportunities and Challenges for European Universities | IMOTION](#) Please feel free to circulate it within your networks.

All the very best,

Dr Patrice Twomey
