## **The Quality of University Education: Harmonizing Purposes, Processes and Outcomes**

**29 June – 3 July 2020, Budapest, Hungary**

Application deadline: **14 February, 2020**

CEU's summer program offers a course on the topic of University Education.

This Summer University course intends to help universities develop their own internal quality assurance and enhancement processes – including institutional self-studies, program-reviews, faculty and course evaluations, quality of management and student services – and coordinate their efforts to ensure that the outcomes and processes of university teaching meet local and international standards simultaneously.

The course will discuss the challenges of and best practices in fulfilling the many purposes of quality assurance at university level, such as accountability, efficiency, control, evaluation, accreditation, measurement and quality improvement.
